1 July 1997

## EDUCATION

Yasar Acar Science High School  
**Computer Science** | Yildiz Technical University  
2015-2019 DROPOUT

## EXPERIENCES

### Frontend Developer | Metrobi

JULY 2019 – CURRENT

- Developed a React-Native application for our drivers to guide them while delivering packages.
- Made code refactoring and UI improvements to our dashboard written with React.

### React-Native Developer | Kodnet Mobile

APRIL 2018 – JULY 2018

- Developed Reportly for Instagram account analyzing.
- Used React-Native-Navigation and Svg-Charts.

### Game Developer | Dotto Games

DECEMBER 2017 – FEBRUARY 2018

- Developed many mobile game prototypes using Unity. I used the MVC design pattern.
- Implemented A\* navigation algorithm for a Match-3 type game.

### Freelance Projects

#### Narmoni:

- A shopping assistant application for comparing prices between markets and optimizing shopping lists.
- Used React-Native, React-Navigation, MobX, Algolia and React-Native-Firebase on the mobile app.
- Used React-Native-Interactable for smooth detailed animations and drag actions.

#### Manchmark:

- Manchmark is a skill test where you can test your skills and compare yourself to other people.
- Used React-Native, React-Native-Navigation, Facebook Account Kit, AdMob, React-Native-Localization and my own global state logic on mobile app.
- Used haptic feedbacks and sound effects.
- Used React-Native's Animated library for smooth custom animations.
- Developed a high-performance game board with animation using PanHandler.
- Used Nodejs, MongoDB and Mongoose on server.

#### Word Fighter:

- A game I developed using Unity.
- Developed an algorithm which generates 16 random letters. The algorithm ensures some of the letters forms a word

## PROFFESIONAL SKILLS

- **React-Native (Expert):** Developed lots of applications.
- **React (Beginner):** Improved dashboard of Metrobi.
- **C# / .Net (Intermediate):** Developed several desktop applications.
- **Unity (Beginner):** Developed several games. Mostly prototypes.
- **C / Java (Beginner):** School projects.
- **Python (Beginner):** Developed few desktop applications.
- **Node.js (Beginner):** Developed backend of Manchmark

## LANGUAGES

Turkish: Native

English: Fluent
